

According to the FTC, retail businesses lose billions of dollars annually when fraudsters purchase or return goods by using counterfeit driver's licenses.

QuickScan from 700Credit is a powerful mobile document scanner that provides dealerships real-time confirmation of the legitimacy of a customer's driver's license and identity. Although it can be used in-store, it is particularly helpful when used to verify the identities of online car buyers.

QuickScan Mobile Driver's License Scanner

KEEP NPI OUT OF YOUR SALES TEAMS' HANDS, IN COMPLIANCE WITH 2022 FTC SAFEGUARDS REGULATIONS

How It Works

- ① Using a link sent by the dealer to a customer's mobile device, the customer is guided to capture their document & a selfie
- ② Facial recognition software checks the selfie against the image on the driver's license to determine a match
- ③ The driver's license is scanned and run through rigorous data & document recognition checks to determine authenticity to
- ④ The customer's mobile device is authenticated
- ⑤ Information obtained from the license is run against Identity Verification tools to find evidence of fraud

Each QuickScan Provides:

- Driver's License Verification w/ Selfie Comparison
- Identity Verification w/ Synthetic ID Check
- Device Validation
- Deal Jacket Integrations
